EXPERIENCES

Silex Lab, Valence—Full stack web developer - CEO

AUG 2021 - PRESENT (1.5 years)

Launched a software company with two associates to help small/medium-sized businesses in their digital transition, mainly working with Dolibarr ERP.

Freelance, Nancy— Full stack web developer

Jan 2020 - PRESENT (3.5 years)

Worked as a freelance for multiple clients in diverse fields such as food production, GPS, sport, and design offices.

- Leading the development process through the entire software life-cycle under Agile methodology
- Started every web project from scratch, choosing technologies and code structure, development configuration, and deployment to production

Sopra Steria, Nancy— Junior Cobol Developer

MARCH 2019 - NOV 2019 (6 months)

First small experience as a junior developer in the bank domain.

PROJECTS

Aquaponics— 4 apps - 3 years

Successfully deployed 4 apps for professionals, mobile, tablet, and/or desktop-oriented.

- Front-end : SvelteKit, CSS/Sass, JS
- Back-end: PHP 7, MYSQL, REST API

calANDrier— Annual Calendar - 2 years

Creation of a SaAs from scratch, an online annual calendar with a specific layout.

- Achieved a user-friendly and visually appealing interface with SvelteKit, CSS/Sass, and Typescript.
- The back-end architecture was built using JS and Supabase to ensure scalability and reliability
- Accessible at app.calandrier.com

Shopify and DHL labels — ERP customization

Improved customer processes by connecting his Dolibarr ERP to a Shopify Store to synchronize orders. Added a connector to the DHL SOAP API to generate labels for product shipments to make it ideal.
